In the beginning, we used our relationships and contacts to start the business and we were in the right place and time for the people around us so that we could buy things for our customers and deliver them to them at a very low cost and time, in this way and over and over again we got the trust of our customers and even the customers started sharing their experience with us to other people. Every business start is very difficult especially when you are new in the market and find a way to gain the trust of others, our way of gaining trust was to ask customers a difficult task to solve or find an item, and so we did succeed to gain trust and attention. There are many ways to buy things but you will probably find a better way with (The Vendor) and the best way to prove it is to give us a chance and see how we achieved your goal.

في البداية ، استخدمنا علاقاتنا واتصالاتنا لبدء العمل وكنا في المكان والزمان المناسبين للأشخاص من حولنا بحيث يمكننا شراء أشياء لعملائنا وتسليمها لهم بتكلفة ووقت منخفضين للغاية ، في هذه الطريقة وتكرار ذلك مراراً وتكراراً حصلنا على ثقة عملائنا وحتى العملاء بدأوا في قص تجربتهم معنا على أشخاص آخرين. كل بداية عمل صعبة للغاية خاصة عندما تكون جديداً في السوق وتجد طريقة لكسب ثقة الآخرين ، وطريقتنا في الحصول على الثقة كانت أن نطلب من العملاء مهمة صعبة لحلها أو العثور على عنصر ، وهذا ما فعلنا لكسب ثقة و الاهتمام. هناك العديد من الطرق لشراء الأشياء ولكن ربما تجد طريقة أفضل مع (المورد) وأفضل طريقة لإثبات ذلك هي منحنا فرصة لتحقيق اهدافك
